## Aspire One D270

A fabulous travel companion, the Aspire One D270 packs great features for fun and work in a compact size!

### Comfortable design, cool colors

The Aspire One D270 netbook may be small, but it still boasts a 93% full-size keyboard for convenient typing, along with a multi-gesture touchpad that makes navigation easy. Choose from the array of cool colors -- Aquamarine, Espresso Black, Burgundy Red or Seashell White -- so you'll get your stuff done, and look good doing it!

### Impressive operation

This netbook features a 10.1" widescreen display and runs on an Intel® Atom™ dual-core processor that provides smooth performance while conserving power. A hard disk drive up to 500 GB stores all your multimedia, and an HDMI® port lets you use this little netbook to watch high-def movies on a big-screen TV!

### Effortless connectivity

The Aspire One D270 provides wired and wireless web surfing, email and social networking status updates anytime. There's also a built-in webcam and microphone for quality face-time with family and friends. What's more, optional 3G1 connectivity expands networking possibilities, and Bluetooth® 4.01 transfers files faster than ever.

### Easy mobility

Weighing less than a 6-pack of soda and smaller than a National Geographic magazine, the Aspire One D270 netbook fits nicely in a backpack or handbag. And, you'll get up to 8 hours<sup>1, 2</sup> of juice with one charge of the Acer MiniGo adapter, so you're free to hit the road!
