

Projectors

P7 Series

The professional Acer P7 Series employs advanced technologies and convenient setup utilities to deliver clear, persuasive presentations in large business venues. Enterprising innovators like you will appreciate the high resolution, brightness and contrast ratio to drive your ventures toward greater success. [Acer Projection Calculator](#)

Remarkable visuals

This professional projector is the perfect workhorse for big meetings, presenting fantastically clear and vibrant images even in amply lit venues. Acer's advanced color technologies ensure color brilliance, and guarantee consistent image quality despite prolonged use.

Wireless convenience¹

Experience true presentation freedom -- project from any PC in the room over an 802.11b/g/n network, or use the MobiShow application to present from a Windows® Mobile smartphone. You can also use the Remote Desktop feature to access content from any PC that's connected to the projector via LAN or Wi-Fi® and has launched the Acer eProjection utility. What's more, the P7 Series complies with the Crestron® Network System so you can control the projector over LAN or Wi-Fi®.

Installation flexibility

The Acer Side-Loading Lamp design makes lamp replacement trouble-free, even while the projector remains ceiling-mounted. The keystone correction feature eliminates distortions resulting from elevated or side projection. Furthermore, with the Display over USB1 feature, images from your PC can be displayed as soon as a USB cable connects the PC and projector.

Empowering usability

The Empowering Key provides easy access to the useful suite of Acer Empowering Technology tools. Acer SmartFormat technology offers instant projection of wide-format content, without complicated resolution settings. With Acer Instant Pack technology, you can safely unplug the power cord right after the projector is turned off -- you don't have to wait till it cools down, so you can pack up and go immediately.

K Series

The pocket-size Acer K Series is so small that you can project vibrant visuals from one hand. Despite its small size, this mini projector features high brightness, an intuitive UI, rich media functionality, and easy setup in various environments. Additionally, the Acer K Series uses a mercury-free LED light source to ensure longer lamp life while protecting the environment. [Acer Projection Calculator](#)

Pocket-size, radiant display

Ultra-light and portable, the K Series is convenient to bring anywhere! The projector casts high lumens brightness so you get vibrant visuals and better color saturation thanks to LED technology. The long lifespan of the LED lamp translates to big savings, while the absence of hazardous mercury or halogen gases means safer use for you and the environment.

Effective, mobile usability

The K Series may be small, but it is big in performance. The high contrast ratio enables projection of detailed text and visuals from a long distance on a large screen; Acer SmartFormat technology offers complete multi-format support for both 4:3 displays and widescreens; and with Acer Instant Pack technology, you can unplug the power cord right after the projector is turned off, and rest assured that no damage will be caused.

K11

SVGA (858 x 600) 1080i - Contrast Ratio 2000:1 - Standard Mode Brightness 200 lm - Normal Mode Lamp Life 30000 Hour - Weight (Approximate) 610 g

P3 Series

The diminutive Acer P3 Series is ultra-lightweight yet packs leading projection technologies to deliver high-impact performance wherever you go. Enjoy PC-less projection using an external storage device¹ to beam photos, videos and movies directly from this projector. What's more, power-saving technologies lower costs and conserve resources. Acer Projection Calculator

Prolific imagery for effective presentations

Advanced technologies optimize color balance and details, delivering more brilliant projection. An exceptional resolution shows sharp details even for fine print, while very high lumens brightness and contrast ratio project crystal-clear images in venues of various sizes.

Versatile installation and connectivity

The Acer P3 Series renders captivating 3D visuals via DLP® 3D Ready² technology. An HDMI® port delivers uncompressed digital signals and multi-channel audio, while other dedicated ports allow you to connect other devices. And, with a tailored installation menu, you can quickly set up your projector without waiting for signal input.

Empowering usability

The Empowering Key provides one-touch access to essential tools including a new-generation management which helps create a customized startup screen. This smart projector also offers instant projection of wide-format content without complicated resolution settings.

Eco-friendly functionality

Acer EcoProjection technology cuts standby power consumption to a single watt, for earth-friendly power management. Other eco-conscious technologies include long-lasting lamp life and automatic shutdown after a pre-set period without signal input. Topping it off, this projector allows you to safely unplug the power cord right after the projector is turned off.

P1 Series

The Acer P1 Series presents breathtaking visuals for remarkable SMB or classroom presentations. Convenient utilities enable easy setup, while advanced power-management solutions conserve energy and the Earth's resources. To top it off, the P1 Series is available for remarkably good value. Acer Projection Calculator

Prolific 3D imagery

Whether you're making business presentations or giving academic lectures, the DLP® 3D Ready P1 Series renders fascinating, multi-dimensional imagery¹. Advanced Acer color technologies enliven graphics with lifelike colors and preserves image integrity even with prolonged use. High brightness, contrast ratio and resolution depict sharp details.

Convenient installation

The keystone correction feature eliminates image distortions resulting from elevated projection. Thanks to the installation menu, signal input from a notebook is no longer required, so mounting the P1 Series on the ceiling is fast and convenient. To top it off, the Acer Top-Loading Lamp design affords easy lamp replacement even while the projector is ceiling-mounted¹.

Empowering usability

The Empowering Key offers instant access to Acer Empowering Technology tools for easy customization of power, viewing and timer settings. Acer SmartFormat technology facilitates projection of wide-format content without complicated resolution settings. Acer Instant Pack technology lets you safely unplug the power cord right after the projector is turned off, so you can pack up and go immediately.

Eco-friendly functionality

Acer EcoProjection technology cuts standby power consumption to a single watt, for environment-friendly power management. The long lamp life cuts lamp replacement costs and ensures long-term, dependable projector use; ECO mode extends lamp lifespan and reduces noise and power consumption. With the Auto ECO feature, the projector automatically enters ECO mode if there is no signal input for 5 minutes, resulting in an up to 20% further reduction of power consumption.

P1201B

XGA (1024 x 768) 1080p - Contrast Ratio 3700:1 - Standard Mode Brightness 2700 lm - Normal
Mode Lamp Life 5000 Hour - Weight (Approximate) 2.45 kg

Part Number EY.JCK01.006

X1 Series

The Acer X1 Series projector boasts outstanding performance with rich colors, superb clarity, excellent 3D1 entertainment and a true 24p1 frame rate for a cinema-like experience. A long-lasting lamp life and practical lamp design keep maintenance costs low. And, Acer EcoProjection technology reduces power in standby mode from 5 W to 1 W, while Acer ColorSafe technology preserves the color integrity of your images even after prolonged use of the projector. [Acer Projection Calculator](#)

Lively display

Enjoy immersive visuals for games, movies and photographs beamed from the Acer X1 Series projector, certified for leading 3D1 solutions. Beyond that, advanced technologies depict optimal color balance and allow accurate image projection, even on colored walls. Plus, an exceptional resolution and high brightness project crystal-clear images.

Installation flexibility

This chic-looking projector is designed to simplify lamp replacement even when it's ceiling mounted. Correction technologies ensure the right orientation and present perfect view, while digital magnification project interesting details of your displayed content to your preferred spot. What's more, dedicated ports allow you to connect other devices to your projector.

Dynamic usability

The Empowering Key provides one-touch access to essential tools, including new-generation management that helps you create a customized startup screen. This smart projector also delivers instant projection of wide-format content without complicated resolution settings.

Eco-friendly functionality

Acer EcoProtection technology reduces power in standby mode from 5 W to 1 W to conserve energy. Other eco-conscious technologies include long-lasting lamp life, a power-saving mode, and automatic shutdown after a pre-set period without signal input.
