## Liquid E

The all-new Acer Liquid E equipped with the latest Android 2.1 Éclair, even more easy-to-use features and ultra-smart menus. With ultra-fluid, high-definition multimedia, stunningly fast applications and endless socializing on the go, this is the phone that will take your social and multimedia worlds into a new dimension. This is Liquid. Only better.

### Available in Black, Red and White

· 3.5" high-definition (WVGA) capacitive screen · Unique, lightweight design (just 135g) · 5MP camera with autofocus and geo-tagging

### Android Éclair

The Acer Liquid E was designed from the outset to keep you in touch and in control of your mobile communication unlike any other phone out there. To do just that, we've equipped it with the highly intuitive Android™ Éclair Operating System for a whole new level of interactivity and mobile freedom.

### Share in Seconds

Point it, shoot it, geotag it, send it or post it wherever you want. The Acer Liquid E is perfect for staying in touch with your friends on your favorite social networks like Facebook®, Twitter® and YouTube®.

## Liquid E Ferrari Edition

Liquid E Ferrari special edition is the exclusive smartphone dedicated to those who demand something extra from their technological devices: passion, cutting-edge technology, performance, and ... exclusive features! Passionate like the red of its livery; sophistication, expression of the utmost perfection; high performance like the finest race cars; exclusive like a tailor-made suit; and fully-equipped like a luxurious object. These ingredients make the Liquid E Ferrari special edition utterly unique and in a class of its own. Created from a pure racing soul, the Liquid E Ferrari Special Edition combines powerful performance with design excellence. It is not merely a luxurious smartphone or status symbol; it is an object with nothing was left to chance, where obsessive attention to detail ensures its owner a uniquely rare experience.

### Available exclusively in glossy Ferrari F1 Red

· 3.5" high-definition (WVGA) capacitive screen · Unique, lightweight design (just 135g) · 5MP camera with autofocus and geo-tagging

### Android Éclair

The Acer Liquid E Ferrari Special Edition was designed from the outset to keep you in touch and in control of your mobile communication unlike any other phone out there. The 3.2 megapixel sensor in the beTouch E210 allows you to capture the moment and instantly share it with your the world thanks to integrated social network software.

## Iconia Smart

Acer ICONIA SMART perfectly combines the capabilities of a tablet in a smartphone format: a huge 4.8" widescreen in a compact, pocketable and classy form factor. Its revolutionary design, characterized by a stretched out, thin and slightly curved shape, makes it a fascinating device that will not go unnoticed. Its full metal body, enriched by subtle wavy patterns, conveys a sense of timeless elegance. What's more, it offers a perfect fit in your hand thanks to its smoothly curved back and minimal width (64.5mm).

### Pure Cinema

The bold 4.8-inch display in true 21:9 cinema aspect ratio blended with exceptional Dolby audio create an unrivalled mobile movie theatre for you to hold. Whether using the loudspeakers or a headset the sound is every bit as breathtaking as the visuals. The LED technology that you find in the latest TVs is now in the palm of your hand. The ICONIA SMART displays bright, striking images and video while being energy efficient to save power. With a built-in HDMI out connection you can view videos on the big screen to share with friends and family.

### Browse Happy

The web browser is loaded with clever features that make sure you get the best performance out of the web. Ditch mobile websites and specific clients for fully featured websites including Adobe Flash Player support! No more 'zoom in, zoom out' the website is displayed in its entirety on the 1024x480 resolution screen. Just like browsing on your pc!

### Play like a Pro

Powered by a 1Ghz Snapdragon processor means that the ICONIA SMART is fast, fluid and stays fun without so much as a hint of slowing down your day. The extra widescreen and rich colours displayed on the ICONIA SMART make it ideal to use as your portable gaming hub. Plus the sensitive 6-axis motion sensor lets you have precise control over every aspect of the game. What are you waiting for? Start having fun immediately with one of the HD games preloaded: Asphalt, Spiderman and Nova. You can also browse for more fantastic games on the Gameloft store. Enjoy!

## 8 Megapixels to Play With

On the back of the ICONIA SMART you'll find an 8 megapixel sensor to capture every detail of your surroundings with an LED flashlight to brighten up photos when you need to. To fully take advantage of the 8MP camera, Acer has created a camera app that's full to the brim with features. Built-in image stabilisation, panorama maker, face and smile detection all help to make your phone snaps look like professional portraits. The ICONIA SMART comes with a front-facing 2 megapixel camera allowing you to use video calling applications to stay in touch with your contacts. When you can't manage to meet someone in person at least you can have a conversation face to face.
