Liquid E

The all-new Acer Liquid E equipped with the latest Android 2.1 Éclair, even more easy-to-use features and ultra-smart menus. With ultra-fluid, high-definition multimedia, stunningly fast applications and endless socializing on the go, this is the phone that will take your social and multimedia worlds into a new dimension. This is Liquid. Only better.

Available in Black, Red and White

· 3.5" high-definition (WVGA) capacitive screen · Unique, lightweight design (just 135g) · 5MP camera with autofocus and geo-tagging

Android Éclair

The Acer Liquid E was designed from the outset to keep you in touch and in control of your mobile communication unlike any other phone out there. To do just that, we've equipped it with the highly intuitive Android™ Éclair Operating System for a whole new level of interactivity and mobile freedom.

Share in Seconds

Point it, shoot it, geotag it, send it or post it wherever you want. The Acer Liquid E is perfect for staying in touch with your friends on your favorite social networks like Facebook®, Twitter® and YouTube®.

Liquid E Ferrari Edition

Liquid E Ferrari special edition is the exclusive smartphone dedicated to those who demand something extra from their technological devices: passion, cutting-edge technology, performance, and ... exclusive features! Passionate like the red of its livery; sophistication, expression of the utmost perfection; high performance like the finest race cars; exclusive like a tailor-made suit; and fully-equipped like a luxurious object. These ingredients make the Liquid E Ferrari special edition utterly unique and in a class of its own. Created from a pure racing soul, the Liquid E Ferrari Special Edition combines powerful performance with design excellence. It is not merely a luxurious smartphone or status symbol; it is an object with nothing was left to chance, where obsessive attention to detail ensures its owner a uniquely rare experience.

Available exclusively in glossy Ferrari F1 Red

· 3.5" high-definition (WVGA) capacitive screen · Unique, lightweight design (just 135g) · 5MP camera with autofocus and geo-tagging

beTouch E110

Turn up the Fun The beTouch E110 is ready to open your world to the endless possibilities of real mobile Internet. With 3G connectivity, you can browse the web, update your social networks and have fun online whenever you feel like it. If you're the kind of person who likes to have your movies, music and a whole bunch of games and applications with you at all times, the beTouch E110 is for the answer. Simply slip a micro-SD card into the handy slot and you have up to 32 GB of storage space to fill. With that much memory on tap, there's almost no limit to the digital media you can take with you.

Cool design

Stylish, compact and super slim, the beTouch E110 is designed to be both extremely comfortable to use and very easy to carry. Available in two colors: Black & Dark Blue.

Keep track of your friends

The beTouch E110 lets you keep track of the latest news from your friends, check your emails and follow your Twitter™ and Facebook® updates wherever you are.

Fast and easy mobile internet

With 3G+ connectivity, the beTouch E110 delivers instant, high-speed access to the web.

beTouch E100 E101

Not just a phone. A smart phone! You will be amazed of what your mobile phone can do today. The beTouch series makes your experience a real pleasure. Access your favorite applications in one click from the home screen; enjoy instant access to the Internet and view pictures and videos the clear way with large touch screens.

Colorful thing

Today, it's all about style so why should you limit your phone to just one color? The beTouch E100/E101 is available with alternative clip-on battery covers in pink, red or green so you can match your phone to the way you see the world.

You're social. Everywhere

You have a moment to yourself. Time to catch up with your friends? Time for the beTouch series. One touch and you can see what's new on Facebook and Flickr®, check out your favorite blogs or hunt down the video to that tune you've been humming all day. No matter where you are, now you're always in touch with beTouch series.

Mobile internet made easy

With the combination of 3.2" touchscreen and scroll wheel, you can access your favorite websites on the go. Zoom in, zoom out, scroll through the page, feel the Internet just like on your PC.

beTouch E400

Enjoy Everything The Acer beTouch E400 comes with the stunningly simple Android™ 2.1 Eclair operation system with clear and simple menus and everything you need available with just a few flicks of the finger. The 12 mm super-slim Acer beTouch E400 with its 3.2" HVGA touch screen and stylishly pure design, combines so much class and simplicity your friends will be talking about it more than you do.

Slim and trendy

At just 12mm thin, the slim and pure Acer beTouch E400 with its unique design is a real eye catcher. With 3 changeable battery covers in soft-touch black, ceramic white and pearl red, the E400 is more than a phone - it's a style statement.

Mobile jukebox

With support for up to 32GB microSD cards, the E400 is the perfect mobile jukebox for all your media files (music, pictures and videos).

Style without boundaries

The Acer beTouch E400 is ready to open your world to the endless possibilities of real mobile internet. With 3G and Wi-Fi connectivity, you can browse the web, update your social networks and have fun online whenever you feel like it.

neoTouch P300

Inspired Efficiency The slim Acer neoTouch P300 packs a 3.2" touch screen, and a full QWERTY keyboard into a thin and compact form factor, making it one of the most capable and user-friendly communication handsets we've ever built for a superior browsing and messaging experience. The neoTouch P300 with latest version of Windows® Mobile 6.5.3 with optimized finger-based navigation puts a complete set of productivity applications in your hands, including Mail, Microsoft® Exchange Server support and Microsoft® Office Mobile suite along with Adobe PDF reader for easy viewing and editing of all your business documents on the go. View spreadsheets, modify Power Point presentations, edit documents with Microsoft Word...all this from your neoTouch P300.

Ergonomy & Simplicity

Enhance your productivity thanks to the combination of a large touchscreen and Qwerty keyboard, packed into a compact and pocketable form factor. Enjoy the touchscreen to access all your preferred information with a single tap and use a full keyboard when you have to write emails or modify documents on the go.

Compact communicator

Communication comes in many forms and the Acer neoTouch P300 has got them all covered. Web, email, IM, social networks, voice and SMS. All in the palm of your hand.

Access everything

See the latest news from the web, keep up with all your friends and read and reply to your professional and personal emails directly on your mobile.

neoTouch S200

All the power you'd ever wanted from a smartphone. Acer neoTouch comes with 1GHz processor, the highest definition 3.8" screen, the simplest Windows Phone® interface, ultra-high-speed 3G+ and WiFi connectivity and seamless synchronization with your laptop.

neoTouch for Fun

Stream videos from the web and watch them on the 3.8" high-definition screen, listen to your favourite music with the built-in 3.5mm audio jack, or download and enjoy action-packed 3D games. The neoTouch is so much more than a phone - it's a mobile funfair.

neoTouch for Social Media

Check your friends' status on Facebook, and update yours from anywhere, upload pictures to your Flickr account or simply share your feelings with the world on Blogger. There's so much out there to enjoy, now you can take it all with you.

neoTouch for Video

The 5MP Autofocus camera with LED flash lets you capture life's better moments in superb clarity, then instantly post them to your favourite social networks or simply mail them to friends and family. Prefer movies? No problem! The neoTouch lets you record live videos and can also post them to YouTube.

Stream

The ultimate entertainment smartphone. Powerful processor. Cutting-edge design. High-definition graphics. HDMI connectivity. Dolby sound... With the Acer Stream, everything else is in slow motion.

The ultimate entertainment smartphone

Powerful processor. Cutting-edge design. High-definition graphics. HDMI connectivity. Dolby sound... With the Acer Stream, everything else is in slow motion.

Android Éclair

The Acer Stream was designed from the outset to be the ultimate entertainment smartphone, which is why we've equipped it with the highly intuitive Android™ Éclair Operating System, powered it by the fastest processor out there and given it Dolby Mobile to play with. Want hi-end entertainment on your smartphone? Stream it.

Instant social networking

One of the great things about the Acer Stream is that it's so good at connecting you to everyone and everything you'll be doing it more often than ever before. With the hottest social networking applications built right in, including Facebook®, Twitter®, Picasa® and YouTube®, and countless more available on the Android Store, you're one tap away from anything you need to know and everybody you want to follow.
